Universal Grammar allows multiple adjunction in both directions and both leftward and rightward syntactic movement. The syntax of adjuncts is a thorough examination of the licensing and distribution of adverbial adjuncts. This book proposes a theory of the distribution of adverbial adjuncts in a Principles and Parameters framework, claiming that there are few syntactic principles. In generative theory the analysis of the syntax of adverbial expressions has lagged behind adjuncts. The view he critiques is that of Cinque () and others.
